SUBJECT: Geography Sequence of Topics Taught

Year	SEMESTER 1	SEMESTER 2
7	CONTENT: Water in the World Water: a renewable environmental resource. Water in Nature. Value of water. Managing water Water Hazards: flooding and bushfires Weather: Rain shadow effect FIELDWORK:	CONTENT: Place and Liveability • Settlement • Housing • Demography and living choices. • Livable places. • Enhancing liveability. MAPPNG Unit:
		 Australia and mapping task FIELDWORK: Donald Community
	CONTENT:	CONTENT:
	Landforms and Landscapes	Changing Nations
	Landscapes and their landforms.Shaping landforms.	Consequences of urbanisation.Urban settlement patterns.
	 Shaping landforms. Value of landforms and landscapes. 	 Urban settlement patterns. Megacities
8	 Managing landscapes. 	 Internal migration in Australia and China.
	 Landscape hazards. 	 International migration in Australia.
		 Managing Australian cities.
	MAPPNG TASK:	Rainforests- Amazon
	Landscapes Mapping Task	Endangered Animals.
	FIELDWORK:	Living conditions South America
		MAPPNG TASK:
		South and central American map task.
		FIELDWORK:

Seegraphical skills and concepts. Geographical skills and concepts. Biomes and Food Security Connecting with our places All the world is a biome. - Connecting with our places • Feeding the world. - Tree impacts of global food production. • Challenges to food security. - Meeting our future global food needs. • Mapping Task. FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management - Global variations in human wellbeing. • Intraducing environmental change and management. - Global variations in human wellbeing. • Indraview - dammed, diverted and drained. - Free gond Assignment. • Ukraine Russia Conflict Inquiry MAPPNG TASK: • Ware environments - Sustaining urban environments. MAPPNG TASK: • Ukraine Russia Conflict Inquiry MAPPNG TASK: • Ukraine Russia Conflict Inquiry MAPPNG TASK: • FIELDWORK: FIELDWORK:		CONTENT:	CONTENT:
 Biomes and Food Security All the world is a biome. Feeding the world. The impacts of global food production. Challenges to food security. Meeting our future global food needs. MAPPNG TASK: MAPPNG TASK: FleLDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management Introducing environmental change and management. Land environmental under threat. Inland water – dammed, diverted and drained. Frog pond Assignment. Warajing change in coastal environments. Marping Task: Warajing under environments. Marging change in coastal environments. Ukraine environments. Ukraine Russia Conflict Inquiry Marping Task: FletDWORK: Global variations in human wellbeing. Factors affecting human wellbeing. Factors affecting human wellbeing. The impacts of conflict on human wellbeing. The impacts of conflict on human wellbeing. Wanaging change in coastal environments. Warne environments. Ukraine environments. Ukraine environments. Ukraine environments. Ukraine environments. Ukraine Russia Conflict Inquiry MaPPNG TASK: African mapping assignment. Conflict Minerals Inquiry 			
 All the world is a biome. Feeding the world. The impacts of global food production. Challenges to food security. Meeting our future global food needs. MAPPNG TASK: TELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management. Intraducing environmental under threat. Inland water - dammed, diverted and drained. Frage poid Assignment Marging change in coastal environments. Ukraine Russia Conflict Inquiry MAPPNG TASK: Karsen and the move index of the many segment. Conflict Minerals Inquiry 		• •	•
 Peeding the world. The impacts of global food production. Challenges to food security. Meeting our future global food needs. MAPPNG TASK: USA Mapping Task. FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management. Land environments under threat. Inland water – dammed, diverted and drained. Frog pond Assignment Marping change in coastal environments. Warine Russia Conflict Inquiry MAPPNG TASK: Ukraine Russia Conflict Inquiry MAPPNG TASK: Warine Russia Conflict Inquiry MAPPNG TASK: Conflict Minerals Inquiry 		•	
 9 The impacts of global food production. Challenges to food security. Meeting our future global food needs. MAPPNG TASK: USA Mapping Task. FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management Introducing environments and management. Land environments. Marine environments. Marine environments. Ukraine Russia Conflict Inquiry MAPPNG TASK: FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental change and management. Land environments under threat. Inland water - dammed, diverted and drained. Frog pond Assignment Wanaging change in coastal environments. Warine environments. Ukraine Russia Conflict Inquiry MAPPNG TASK: African mapping assignment. Conflict Minerals Inquiry 			
 Challenges to food security. Meeting our future global rood needs. MAPPNG TASK: USA Mapping Task. FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management Introducing environments (Anage and Management. Introducing environmental change and management. Inland water - dammed, diverted and drained. Frog pond Assignment Marging change in coastal environments. Marging change in coastal environments. Ukraine environments - are we trashing our oceans? Sustaining urban environments. Ukraine Russia Conflict Inquiry MAPPNG TASK: African mapping assignment. Conflict Minerals Inquiry 	9	-	-
 Meeting our future global food needs. MAPPNG TASK: USA Mapping Task. FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management. Introducing environment and management. Land environments under threat. Inland water – dammed, diverted and drained. Frog pond Assignment Manajing change in coastal environments. Marine environments. Marine environments. Ukraine Russia Conflict Inquiry MAPPNG TASK: African mapping assignment. Conflict Minerals Inquiry 	J		• Global ici – connections, disparity and impacts.
MAPPNG TASK: USA Mapping Task. FIELDWORK: FIELDWORK: FIELDWORK: CONTENT: Geographical skills and concepts. (SPICESS) Environmental Change and Management. CONTENT: Geographies of Human Wellbeing • Measuring and improving wellbeing. 10 • Introducing environmental change and management. • Introducing environmental change and management. • Introducing environments under threat. • Introducing environments under threat. • Inland water – dammed, diverted and drained. • Frog pond Assignment • Managing change in coastal environments. • Marine environments – are we trashing our oceans? • Sustaining urban environments. • Ukraine Russia Conflict Inquiry MAPPNG TASK: • FIELDWORK: Wellness Survey MAPPNG TASK: African mapping assignment. • Conflict Minerals Inquiry FIELDWORK: Wellness Survey			
USA Mapping Task. FIELDWORK: CONTENT: Geographical skills and concepts.
